**BRITISH MOVEMENT  
CAMPAIGNS  
AGAINST  
IMMIGRATION  
AND  
MULTI-CULTURALISM**

The United Kingdom has always been the butt of many jokes but now our farcical government have made us a bigger joke.

Most of the country wanted Boris because he shouted the loudest about getting Brexit done. Sadly, he got it done but not for the benefit of the people. Instead of our borders becoming our own they are now freely entered by anyone who wants to invade us.

Then the madness of Covid took over. Our farcical government followed the world and locked the country down for months. Paying thousands to sit at home. While they partied in Downing Street laughing about the havoc they were causing.

Once the madness was coming to an end. The cabinet decided that good old Boris would be the scapegoat of all the blunders and made sure they got rid of him. But their plan failed they wanted Sunak to replace him, yet the party members decided they would not have him

## **Joke of the World**

and voted in Truss. A woman who believed the hype around her that she could be the new Thatcher.

She was struck a devastating blow with the death of Queen Elizabeth II within days of becoming Prime Minister. So, we didn't know how out of her depth she really was. The first thing she did was crash the financial markets with their crazy budget. A budget that would have only made the rich richer, the markets didn't like someone going against the grain and trying something different.

Her only response was to back down and that showed the world how weak she was, and her party turned. She had to get rid of her chancellor and replace him with a globalist puppet. Then next her Home Secretary had to go because she really wanted to protect our borders. After that there was no chance of Truss staying as leader she was done and all she had promised had been taken away by her own MP's.

The final step was to make sure

they got Sunak in just as the MP's wanted all along. So now we have a Prime Minister who was only nominated by some of his party but was rejected by its members. This is a man who is definitely a global puppet. Even better for them he is an Asian man leading the UK to go along with the capital Asian Mayor. We have finally become truly diverse but not through democracy but through continued incompetency.

All we can hope for now that is that we go to the ballot box as soon as possible and we can get him gone. Sadly, we will end up with more buffoons in power, unless we wake the country up and only go for those who might actually work for the people who put them there.

Most MP's do not work for their voters they work hard to stay in their seat. So, they can reap the benefits and be part of power. They have no concern if you are struggling to survive in a crazy mess they are creating with every mess up.

## White Flight, Right or Wrong?

Recently I have joined a new Telegram channel. For all of you technophobes like me out there, Telegram is a social media platform that is slight less censored by left wing, Marxist operators. It's a platform that allows right wing political views to be posted and discussed openly and gives somewhat of a platform to us National Socialists. But always be careful as many public channels has anyone can view the channel and the comments.

The new channel I joined was created and is run by, a very pro white, straight talking, anti-Afrocentric and anti-Marxist woman who has no issue withstanding up for what she believes in and will be quite vocal about it too.

During one discussion following on from the topic of 'white flight' I decided to raise my head above the parapet and explain that I'm guilty of moving away from my 'hometown'... but before I could explain why, or even attempt to justify my actions, I was immediately shot down with an array of negative comments, nasty remarks, and some downright silly suggestions. I was a little shocked by some of the comments as these were from the people who were supposed to share similar views to myself. My supposed brothers and sisters, who were now gunning for me because I am apparently a 'coward' and 'part of the problem'.

In fact, the channel owner herself contacted me directly to explain that she didn't agree with me moving areas and believes that white people should stay and fight for what is rightfully theirs, but she said she did understand why I did move.

This experience had played on my mind for some time and left me pondering on the question 'is white flight right or wrong?'

For nearly 40 years of my life, I lived in the west midlands, and not the nicer parts either. It was only when I went to university that I realised the UK is in fact still a mainly white country and a much nicer place than I had so far experienced. When I returned to my parents in term holiday times, I would notice more and more the attitude of the people in my hometown, the arrogance of them, the chip on their shoulder. I would realise how run down the area was and accept how high the crime rate could be.

You had one side of my hometown literally full of Indians who owned the local businesses, driving around in their big Mercedes cars and dripping in Asian gold...all afforded by avoiding the UK Tax System, sending money back to India, paying

wages direct to the temple as a 'charity donation' only to take it back from the temple as a 'gift' once the tax had been written off. These are the Indians who will no doubt have many different names on their various ID's and bank accounts. The same type who will have a fellow member of their 'caste' as a solicitor or bank manager, further allowing their corruption to slip through the somewhat inefficient net of the UK tax laws.

The other side of town was the Pakistanis and Bangladeshis. Their area was saturated with buildings that had been turned into mosques, Islamic community playgrounds, dilapidated terraced houses with dirty net curtains hanging up, bags of household rubbish piled high outside of their homes attracting many rats where their children would play and a smell that can only be described as rotting onions and sweaty feet.

Then at the bottom of the town there was the Black areas, 'affectionately' known by the residents as the Ghettos. These were rows of concrete maisonettes where stabbings and shootings took place regularly. Drugs were as easy to get as sweets. Muggings were carried out several times a day in broad day light and the perpetrators would then casually just walk back into the Ghettos knowing that the police would never go in there to look for them.

The old Indian men would sit on the side of the streets on milk crates playing card games, the old Pakistani men would sit on the curb side picking their feet whilst chewing and spitting betelnuts into the road and the old black men would attend church and preach about how hard done by the Afro-Caribbean community was all whilst their sons were out mugging and beating old white ladies, stealing cars, burgling houses and cutting each other up for being in a different gang.

I fail to see what exists in my hometown that is rightly mine. I fail to see what there is worth fighting for anymore. The people who may have shared some of my views have long left this life or moved away themselves. Stickers, Leaflets, even campaigning in such an area would only bring negative attention and do more harm to our cause than good.

I had the chance to relocate with my job and having a wife and young family who are dependant financially on me, I made the decision to move...and here is why.

Yes, my new area is very much predominantly white. Yes, my children

will be growing up around other white children and yes, the area is cleaner and with less crime than the 'culturally diverse' town I left behind, but these are not the only reasons.

My new area does have a very tiny Pakistani population, it also has the white folk who have the belief that the Pakistanis are "alright because they stay in their area and keep themselves to themselves" but I know, from personal experience, that this won't always be the case. I have witnessed it first-hand. This could be just the beginning of a much larger problem. Like a nasty rodent infestation, I know they will breed and breed until they slowly start taking over. I saw my hometown fall.

I refuse to see my children's hometown go the same way. The time to act is now, and that is what I am doing.

So, for me 'white flight' was the right thing to do. Think of it as more a tactical retreat. I was fighting a losing battle with little support in the west midlands.

Today my message is being heard, I am more mature and experienced in my discussions with my neighbours and more and more white folk are waking up to the problems in this country. To run away and hide locked away in a rural village to avoid 'multiculturalism' is wrong in my opinion, but to move to an area to better your young family, the next generation of National Socialists, and to spread the word and experiences of what may lie ahead for the town can only be a good thing. To share stories and to give an alternative outlook to what people already know and to enable others in your new community to think differently, well that's a win-win situation for me.

White Flight or Tactical Retreat? I prefer the latter term. It would be interesting to get some other readers views.

Hail Victory.

## Ulster's Elections and its Wider Implications for the Future of the UK

May 5<sup>th</sup> saw Ulster voters at the polls, despite economic, social, and political considerations for local folk, the crunch was essentially one of nationality the clear line between an electorate either unapologetically British or a constituency, formally Irish nationalist in outlook, but nowadays a multinationalism agenda pledging allegiance to the European Union & it's globalist & nation destroying agenda.

Some 250,000 of our fellow citizens voted in favour of Sinn Fein/IRA and be under no illusion, the IRA still exists and is firmly in control of its SF puppets, in essence the IRA through its SF proxy climbed to power over the corpses of its 3000 victims and with the PR system Provo Michele O'Neill was to have been declared as First Minister with an agenda of reenforcing a border in the Irish Sea as well as continuing to prostitute herself for the EU's nefarious anti-British policies based upon economic and political revenge.

However, the British community made it clear at the ballot box that the EU land grab in the form of the I protocol had to go, thus O'Neill scored a hollow victory with unionist representatives refusing to attend this particular coronation, provoking anger amongst the Provo fan base along with the liberal left in both NI & on the mainland.

O'Neill is however a dedicated and diehard republican committed to destroying the UK, hence few will have been surprised to have seen her conspiring with the equally odious Nicola Sturgeon, undoubtedly the plan for all-, Ireland & independent Scottish socialist republics were top of the agenda, that these numpties imagine the EU will financially prop up either is pure fantasy. However, Brussels will lend lip service to any scheme which they calculate will split the UK and damage British sovereignty.

But returning to the Ulster result and as "right thinking" loyalists have been warn-

ing for years, the migration of racial and cultural aliens into NI is, in conjunction with our traditional enemies, a demographic time bomb with immigrants voting in accordance with their own financial and political interests, similarly other "sexual minorities" will vote in accordance with their depraved and degenerate lifestyles, both are robustly represented in the cultural Marxist policies of SF. Ulster folk tend to be traditionally minded with immigration and deviancy alien to the character of virtually all loyalists.

Immigration is now a deciding factor in many constituencies and evidently so by the huge number of ethnic Roma gypsies who have flooded in over the past decade, a patriotic friend pointed this out to a Democratic Unionist politician who had called at his home canvassing support. Amazingly the gentleman suggested the importation of Hong Kong Chinese as an antidote to an already and increasingly toxic multiculturalism destroying our homeland!

Indeed, what use a flag of Britain if our future generations are to be the same coffee-coloured monstrosities which have destroyed large swathes of the UK, whilst similarly the ethnic extinction of the Irish is well underway in accordance with the EU & Kalagari plan!

3. Islam is the future of Ireland.  
Sinn Fein will help us achieve this.  
[#VotailSinnFein](#)

The late John Tyndall was indeed correct about the eleventh Hour, democracy and multiculturalism combined with the globalist juggernaut is the death knell for people's, cultures, and nations.

SOMETHING HAS TO CHANGE!

## *The Evil Menace of Asian Gangs*

Many of you will know about the involvement of Asian and Muslim gangs in grooming children and dealing drugs but there are many more terrible things that these creatures are doing, and sometimes possibly being allowed to do in our beautiful country.

I have noticed that in many ways children are not safe with these animals. In 1992 white children who attended Shawlands Academy in the southside of Glasgow were attacked by a gang of 50 Asians who were all adults. They attacked children with baseball bats and other weapons. <https://www.heraldscotland.com/news/12583585.two-injured-as-asian-gang-attacks-white-pupils/>

In the southside of Glasgow there is an area Pollokshields. The majority of the residents there are Asian Muslims. I stayed here once. Strange place. Didn't see drunks staggering around. This is Glasgow drunks are common here. This is a place where white people can be attacked walking through by this mob.

One of their top boys known as Baldy who was into drugs and credit card fraud and housebreaking with his criminal gang. This Baldy was driving around Pollokshields and jumping out of his car with a baseball bat and attacking any white person. He badly attacked Pascal Farren and then went to Pakistan to hide. Pascal ended up with serious brain damage. My friend said that Pascal would suffer fit's and that Baldy would have been better off killing him.

<https://www.thefreelibrary.com/GANG+WARFARE+IN+GLASGOW%27S+LEAFY+GHETTO.-a060567726>

Well, this monster did one of the most terri-

ble crimes that has ever been committed in the UK and that was the brutal murder and torture of poor young Kriss Donald who was only killed because he was white. This animal and his gang kidnapped young Kris off the streets of Pollokshields. They drove young Kris around Scotland looking for a house to take him. Young Kris was repeatedly stabbed and set on fire and left to die in the East End of Glasgow. Baldy and his crew again fled to hide in Pakistan and a politician had to go over there to bring them back

They all got life sentences.

I don't know if all of you have heard of this terrible crime as many have complained that this hasn't received proper coverage in the media unlike the Stephen Lawrence case which received much publicity. Baldy and they may be in prison but there are still very dangerous gangs operating in Glasgow. One fella that Baldy blamed for this has been done as a rapist [https://www.dailyrecord.co.uk/cdn.ampproject.org/v/s/www.dailyrecord.co.uk/news/scottish-news/dad-blamed-kriss-donald-murder-11623942.amp?amp\\_js\\_v=a6&amp\\_gsa=1&usqp=mq331AQKKAFAQrABIACAw%3D%3D#aoh=16509852116011&referrer=https%3A%2F%2Fwww.google.com&amp\\_tf=From%20%251%24s&ampshare=https%3A%2F%2Fwww.dailyrecord.co.uk%2Fnews%2Fscottish-news%2Fdad-blamed-kriss-donald-murder-11623942](https://www.dailyrecord.co.uk/cdn.ampproject.org/v/s/www.dailyrecord.co.uk/news/scottish-news/dad-blamed-kriss-donald-murder-11623942.amp?amp_js_v=a6&amp_gsa=1&usqp=mq331AQKKAFAQrABIACAw%3D%3D#aoh=16509852116011&referrer=https%3A%2F%2Fwww.google.com&amp_tf=From%20%251%24s&ampshare=https%3A%2F%2Fwww.dailyrecord.co.uk%2Fnews%2Fscottish-news%2Fdad-blamed-kriss-donald-murder-11623942)

Shafiq Akram another monster was also blamed for this murder. Shafiqs brother Omar is living in a posh house due to extorting businesses. It seems that the police

have been turning their backs on much of this.

This has all happened in Glasgow but there has probably been similar stuff happening all over the UK. Like many of you I know some real heavy people who are quite dangerous, but none act like this, attacking children and that. So, what can we do? We must be strong. Get with people like us and be strong. Work together and make strong communities and keep these animals away from our doors and our families.

## Report from Australia

PAGE 5

### *This virus I am worried about.*

Forget all the other strains of colds, flu, covid, monkeypox etc this is one virus I am truly worried about spreading.

This virus is not content living in the pockets of the cities, towns it takes over, no it wants more and this virus spreads at a frightening speed, no injection will stop it, well maybe one but the chances of this being used is zero.

Roughly 813,400 people identified as Muslim in the 2021 census that equates to 3.2% of Australia's population, but this tiny percentage have made sure it's virtually impossible to buy non-halal meat also half the products in our supermarkets maybe more are halal certified, making our shopping trips a nightmare constantly checking my phone on the latest products we can safely buy, without paying our Islamic food tax.

Muslims have been recorded trading with the aboriginal tribes in the Northern Territory in the 1770s, coming across the sea from Indonesia. Australia first imported camels in 1840 for expeditions. In 1860 not content with just importing camels the first 8 Muslims arrived with them. So, it started.

A picture of the first mosque that was built in 1861 in Moree in South Australia and then in 1888 the Great Mosque in Adelaide was built.

So, these buildings have been a blot on Australia's landscape for quite a long time now.

In 1884 the Eid prayers were delivered in the Albert Park in Melbourne, anyone who has an interest in the Grand Prix will know the race circuit goes around this very same park.

The virus was nearly extinguished when most of the camel herders returned to their respective countries, but it was brought back to life by an unexpected source.

In 1901 under the provision of the white Australia policy immigration was restricted to persons of white European Descent.

This stopped Muslims entering due to their dark skin, but not the white deemed skin of the Albanian Muslim.

Hence the virus started to prosper.

The Albanian Muslim came into Australia in increasing numbers and eventually built mosques in Shepparton, Victoria in 1960, Melbourne in 1969 and 1983.

I shudder to think how many have sprung up since then.

Fast forward to 2022 and Israa Abdalla wanted to kick start her healthcare profession, leaving Brisbane for regional Tasmania.

Things didn't start well for young Israa.

She quickly found there was not much reason to stay in Tassie and that something was missing, she said "I used to go out to look for people who kind of looked like me" as we know it's not the Muslim way to integrate with the local community and immerse themselves with local culture.

So, we know how the story normally plays out and true to the storyline this does also.

The expanding Muslim community in Launceston had only a small prayer room at the university of Tasmania they had to all squeeze into.

Another prominent Muslim Dr Saleem who also squeezes into the tiny prayer room said he was devastated to find out that Launceston had no mosque, businesses and government had thrown money, perks and policy at the so called problem, but he said still the Muslims wouldn't stay, he and his family had also contemplating leaving due to this very reason, so Dr Saleem and the other Muslims decided to do something about it, they spent years fundraising for their very own mosque, and surprise, surprise the dream was realised when the mosque opened in March 2022.

This one thing has now meant that Dr Saleem and young Israa are very committed to now stay and lots of others have changed their minds about leaving unfortunately for Tasmanians

As we know the virus loves these conditions it attracts more and more Muslims to the area once the mosque is open.

Young Israa spends her weekends attending the mosque, praying on Friday, Saturday, Sunday she even met her husband at prayer.

Another education student left Melbourne with her husband because of the vibrant Muslim community that was in Launceston, Nur Athirah said "It gives her peace of mind knowing the Muslim community was already established"

Her husband Muhammad is also very happy with his life in Tasmania saying "the mosque has been good for faith and friendship"

But not with integrating with Australians hey guys.

As well we all know one of the main purposes of the mosque is to attract more of the virus to the honeypot and slowly divide and conquer, hence what's happening here.

### *Here we go again*

It's a bit early to be thinking of Australia Day, it is not until 26th January 2023 after all.

But Melbourne city council have announced it will review the so called 'divisive date' what is divisive I don't quite know except a white Britain found the country that we now call Australia and not a person of colour, if that had happened everything would be rosy as they say.

But they didn't so get over it and celebrate everything the white man and women done in sweating blood and tears to make this country what it is today.

Melbourne city council Lord Mayor Sally Capp said the review may lead to the Australia Day parade, fireworks and citizenship ceremonies being dumped.

The aboriginal and left wing luvvies have been campaigning for a while now to change the date, complaining the aboriginals label the day as A day of mourning and calling it invasion day. The Lord Mayor says we are at a time of great de-

bate and the council is looking at ways where everyone can join in the celebration, unless your white Australians that is.

The Lord Mayor also said the growing National sentiment is of changing the date.

Everyone I know is quite happy with the 26th of January being the date of Australia Day.

Sally Capp, the Melbourne city council Lord

Mayor.

But there is a couple of unlikely people who think otherwise, one being

Aboriginal elder Wurundjeri man Ian Hunter who said changing the date would not have any benefit for the aboriginal people.

Another is Northern Territory Senator Jacinta Nampijinpa Price who quite rightly said there were many days and weeks when indigenous Australians were recognised, how refreshing that is to hear that from an indigenous woman.

One thing for sure is the debate will rumble on and most likely the Australia Day celebration in Melbourne city council jurisdiction will be canned.

As it will in many other towns and cities around the country.

## **Name Change**

Dismantling anything white as we know is continuing unabated, even to the tune of changing the names of Australian National Parks that the authorities deem controversial.

Ben Boyd is one such person with so called links to the slave trade who has fallen foul of the do-gooders.

Boyd was a Scottish entrepreneur who became a shipowner, banker, grazier and politician during his time in Australia, if he'd just kept to these activities all would have been fine, but Ben Boyd also was a slaver that's not fine, even though white slavery still goes by virtually unnoticed and is never mentioned.

In 2021 the NSW Government decided to change the name of Ben Boyd National Park due to Ben Boyd's blackbirding where the people of Vanuatu and New Caledonia were kidnapped and brought to NSW to work on his pastoral stations. He was said to have brought 192 men and women to Australia

Before NP was renamed.

The Park is now officially called Beowa National Park, this translation into aboriginal means orca or killer whale, what this has to do with aboriginals when those effected were from the south sea islands, I'm not sure but this was the name chosen due to the connection of the coastline and the aboriginal peoples who say that traditionally killer whales were there ancestors, and the ancestors spirits went into the whales. It is hoped the renaming of the NP will somehow result in a greater sense of culture.

After name change

Another happy Chappy.

The NP is a popular for its pristine beaches, camping and 4WDs. It remains to be seen if this will still be the case or if local aboriginals will Put in a native land claim and stop people using it. Time will tell no doubt but one thing that is certain, this won't be the last name change in Australia.

On the 15th of October 1851 on Guadalcanal in the Solomon Islands Ben Boyd went ashore with a crew member to shoot game, two shots were heard 15 minutes apart Ben Boyd did not return.

## **Making Our World Smaller**

The madness of the world continues. Daily we have to watch our homelands be invaded by men of fighting age.

But now we are being add to a list that stops us entering other European countries within the European Union. This is not just restricted to us British Nationals but to anyone who wishes to raise a voice in support of the indigenous people of Europe.

Now before Brexit and the

madness of Covid lockdowns and restrictions. We knew they were targeting us and many returning home from abroad where being pulled by boarder control and having our phones taken away and threatened with terror charges if we did not allow them access.

Now the list is out there and unfortunately most do not know they are on the list until they try to enter another country and are denied access

on entry.

In September the Spanish Nationalist Isabel Peralta, was detained for 6 hours on entering the UK at the Manchester airport. Her phone and laptop were retained for 5 days. Now young lady has never been convicted of anything but now also has a 20-year banning order from entering Germany.

Further in the issue read about what happened when the RAC band Whitelaw went to Greece.

## "Esoteric Hitlerism"

"We fight not only to secure our existence genetically; this is a struggle for the Germanic spirit, our spirit - for the BLOOD. The driving force is the love of our own people, our culture, and our race; not contempt and hatred for other races." (1) The idea of 'blood' as a carrier of 'hereditary information' is central to National Socialist beliefs, and can, in some ways, be compared to Carl Jung's theory of the 'collective unconscious', sometimes referred to as the 'objective psyche'. This refers to the idea that a segment of the deepest unconscious mind is genetically inherited and not shaped by personal experience. According to Jung's teachings, the 'collective unconscious' is common to all human beings. Jung also believed that the 'collective unconscious' is responsible for a number of deep-seated beliefs and instincts, such as spirituality. As we all know National Socialism differs from other political ideologies because of its spiritual content. To quote Carl Gustav Jung again: "Hitler is a spiritual vessel, a demi-divinity; even better, a myth. Benito Mussolini is a man. The voice he (Hitler) hears is that of the collective unconscious of his race". Hitler had the ability to turn this "collective unconscious" into a "collective conscious-

ness", and thereby start the National Socialist revolution that is our sacred duty to complete - a Fourth and final World-wide Reich that lasts for all eternity.

It was not only Jung who saw Hitler as more than a mere mortal. Miguel Joaquín Diego del Carmen Serrano Fernández (Miguel Serrano 10 September 1917 - 28 February 2009) was a Chilean diplomat and writer, who became a prominent figure in the neo-Nazi movement and the man who originated the term 'Esoteric Hitlerism'. Like Savitri Devi, Serrano believed Hitler was an 'Avatar', a spiritual adept who had incarnated to Earth as a saviour of the Aryan race who would lead humanity out of the dark age known as the "Kali Yuga". "Serrano finds mythological evidence for the extra-terrestrial origins of man in the Nephilim (fallen angels) of the Book of Genesis...Serrano suggests that the sudden appearance of Cro-Magnon Man with his high artistic and cultural achievements in prehistoric Europe records the passage of one such divya-descended race alongside the abysmal inferiority of Neanderthal Man, an abomination and manifest creation of the demiurge... Of all the races on earth, the Aryans alone preserve the

memory of their divine ancestors in their noble blood, which is still mingled with the light of the Black Sun. All other races are the progeny of the demiurge's beast-men, native to the planet." (2) In 1984 he published his 643-page tome 'Adolf Hitler: el Último Avatāra' ('Adolf Hitler: The Last Avatar'), in which he delivers his ultimate philosophical testament. This epic work opens with extragalactic beings who founded the 'First Hyperborea', commanding the 'Vril' (3) power, the light of the Black Sun coursed through their veins and they saw through the third eye. Serrano described Esoteric Hitlerism as a new religious faith "able to change the materialistic man of today into a new idealistic hero", and also as "much more than a religion: It is a way to transmute a hero into God". Comrades, we, as modern National Socialists have a lot to live up to. Are you prepared to take up the challenge?

- (1) 'Mattias' - Swedish Heathen Front
- (2) Goodrick-Clarke 2003
- (3) An energy-form first mentioned in Edward Bulwer-Lytton's 1871 book 'The Coming Race'

## "DUTY"

"Not once or twice in our rough Island-story,  
The path of duty was the way to glory"

The above quote is by the poet Alfred Lord Tennyson. I found it in Volume 4 of 'The Children's Encyclopaedia'. Judging by the binding, writing style and illustrations I would say this encyclopaedia was produced in the 1930's. A very pleasant and informative book for young children, the likes of which, unfortunately, we wouldn't find at present. One section was on 'Duty' and I found certain passages very pertinent for today: -

"This high idea of duty has grown with us. It is one of the ideals to which the best of our ancestors looked when all around them was darkness and hypocrisy".

"Duty" what does that mean? Back in the 1930's "duty" would have been loyalty to King, Country, and Empire for the majority of people. There would have been no guilt about so called "White Privilege", we ruled a third of the world not by luck but because

we were actually superior - fact!

"All around them was darkness and hypocrisy" - as it is now, and the "best of us" are still "looking" for "the ideals".

"How horrified we should be if we read of a judge taking bribes, or of a statesman making some treasonable arrangement with enemies". Comrades, in just under 100 years how things have changed, today we'd be surprised if they were honest wouldn't we? "Duty is a spiritual thing, if it is an aspiration of the human mind after justice and truth". A description of National Socialism in one small sentence if ever I heard one.

As National Socialists we know all about "Duty" and "Ideals". 'Section 5' of BNSM "Rules and Membership For New Members And Supporters - Appearance And Conduct" clearly states - "Only those men and women with a total dedication to the advancement of the cause of National Socialism may approach us, for only they will be courageous enough to forward the battle which will overcome the agencies of destruction, world

-Communism and world-Capitalism". 'Hollywood Nazis' need not apply!!

Finally, I'll leave you with another quote from the 'Encyclopaedia' - "Alaric did not know, Attila did not know, and many people living in the present day do not know, that nothing good ever dies. But this is the witness of history - a strange and impressive witness which sets the thoughtful mind thinking and gives enthusiasm to the warrior soul". "Nothing good ever dies" that's why National Socialism will live on forever!! Hail The Warrior Soul.

## **Colin Jordan, John Tyndall and Richard Edmonds Memorial Meeting**

**PAGE 8**

### **Colin Jordan, John Tyndall and Richard Edmonds**

#### **Memorial Meeting - Organised by Heritage and Destiny**

The first Colin Jordan, John Tyndall and Richard Edmonds Memorial meeting to be held in 3 years. Heritage and Destiny hosted this year's meeting.

It was a great afternoon, over 70 nationalists came together to remember and pay tribute to these great men of our cause.

There was a great selection of speakers from many groups and organisations. There should have also been 3 lady speakers sadly only 2 could make it due to a family bereavement. One of the lady speakers was the Spanish Nationalist Isabel Peralta, on her arrival into the UK she was detained for 6 hours at the airport under the terrorism

laws. She also had her phone and laptop confiscated for 5 days.

The British Movement had a great turn both with those involved in the event and attendance. We had 2 speakers; the British Movement Women's Division catered the event, and the British Movement Leader Guard provided the security for the event.

The Women's Division put on an amazing buffet, the organiser conveyed his thanks many times and commented that it was the best they had for one their meetings. The ladies who did the buffet must have put some long hours in to create the buffet and through out the event they never seemed to

stop. Adding more to the spread and clearing things away keeping things tidy.

The security team were vigilant and professional through out the event.

On a personal note, the event was well organised, and the food was very good. The highlight for me was hearing our national sectary speak. Something missed with lockdowns and restrictions.

I look forward to being to get to more events now that life is returning to somewhat normality.

### ***Be Careful Online,***

Yes, another warning about being careful online. We are still seeing people being sent down for things on the internet. These can be old post long since forgotten or deleted, however if others have shared it, you get done for it.

Even now, people sign up to different apps, not knowing how to use them. Many still use WhatsApp and have everything download on to their phone instead of changing their settings to stop that happening.

Same with Telegram you can alter the settings to stop downloads. Many do not realise you can hide your number. Also be careful when commenting on public channels as all you post can be seen by everyone, so only post what you know is safe.

Also on Telegram try avoid the groups and channels that offer free downloads of books etc as at the moment these seems to be the main thing the system is using against people.

Another thing to avoid on Telegram is joining into public groups as they are the same as the channels all can see what is posted. You do not need to join the groups to see everything posted. If you wish to start a group or a channel set them up as private and only invite people you know.

Always, be careful think and think again when you want to post something. Could this be used against me and if so, delete it and go look at something else.

### ***Please Help***

We are asking again, please can you help develop The Emblem.

Do you read it and think something about this or that subject needs covering?

Each issue we try cover as much as possible but sometimes there are not enough of us.

As you look through this issue you will see that we have not included some of our normal content. This down to circumstances out of contributor's hands. Sadly, it could be some time before these contributors can come back on board.

This is when we ask again, please help us by sending information, photos, videos and or finished written articles. Do not worry if you have never written anything. Most of the team were the same when joined The Emblem team but as we have got into writing we are all improving each issue.

All articles included are always anonymously published, for the sake of the writer and for the protection of The Emblem. More often than not it is only the editor who knows who has written what.

So please help us and help build our content and be a part of something that is read by our own. Written by our own.

## ***The Banned Band!***

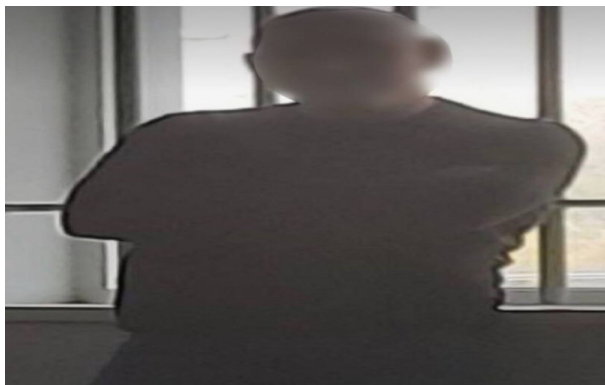

Whitelaw was due to play a gig in Greece at the back end of October, splitting into 2 groups going from different airports.

The two that went from Manchester got detained at Athens airport, held in a detention centre along with the dregs of society. Benny and Paul got held over night and sent back on the Saturday morning.

Steve and I flew into Brussels, as we approached the Passport Control the chap on the desk was busy talking away to his mate on his radio. This saved us, we got a quick cursory glance at our passports, a stamp and we was through.

Once we landed in Athens we got straight through as we had no Passport Control to contend with having come from a European country.

This is where the first problem arose. We hadn't taken our normal Mobiles with us; I'd got a cheap pay as you go phone. As we waited for people to pick us up a message came through saying that Benny and Paul had been stopped entering the country and were being held in a detention centre.

Unfortunately, my mobile wasn't set up for European use so couldn't reply. A quick trip to find a shop and a phone card was purchased to contact family and friends at home to reassure them that we were fine and get info to and from the other two band members.

The other problem was that no one from Greece was there to pick us up as they believed we had been detained as our flight was delayed by over an hour and we had no contact details for them.

Frantic phone calls got made to family back home to get in touch with the concert organisers. Steve and I made the best of the time by sampling a few local beers in a bar inside the airport. Eventually two sorry looking apologetic Greeks turned up to collect us and explained what had happened.

We got dropped off at our hotel for some rest and told we'd be picked up later for dinner.

That evening we were collected, and we were treated to an evening of food and drink with other bands and comrades from Greece. We finally we got to bed in the early hours.

The following morning, I awoke to numerous messages from Paul and the wife, so another frantic search for a payphone. I finally made contact, and all were put at ease again.

We were collected again and taken out for lunch and an interesting lunch we had, plate after plate of grilled meat was served to us, after eating one we were informed we had just eaten, Lamb's colon, it was definitely interesting.

Then back for a quick change and off to the venue for the evening. We had already sorted stand ins for Paul and Steve, he took to the mic. We made an explanation about the situation and then did a set of eight- songs that the crowd loved. Some had travelled specially to see us play. We did our best and it was truly appreciated.

At the end of the evening, we headed back to the hotel where another surprise was in store for me, it was my birthday. The lights dimmed and Happy Birthday started playing and this amazing cake came out, and a party followed. We were also given some Blood and Honour gifts, that were put at the bottom of our bags.

Sunday morning arrived so time to get packed and we were taken for another amazing meal with amazing views over the mountains with the Acropolis in the distance.

We headed off to the airport and said our good-byes. We left Greece with no problems. But we had a changeover in Munich.

On arriving at passport control we were greeted with EIGHT-armed Border Police that pulled us aside. They questioned us and searched our bags in front of everybody. Everything was going fine until one of the Border Police spotted the gifts (Blood and Honour items) and couldn't hide his excitement.

We were marched off to the police station and asked more questions. Then we got escorted to our next flight. But at the gate frantic phone calls got made by the police and conversations between the police and airline staff as they'd held the connection.

Eventually the police got the call they wanted "aaagghh, JA!JA! Sehr Gut! Sehr Gut!!" came the reply as they told the airline they could go without us. We got told that we had to wait to see the Civil

Police as they thought a criminal offence had taken place because of the gifts we had.

Once back at the police station we were informed that we were banned from countries within territories of the Schengen countries, to the rest of us countries with European Union. Apparently, there is a list, and we were on it and were now trespassing and had 7 days to get out the territories.

The Civil Police arrived and explained that he was waiting on a reply from his head of department on whether to charge or not as they didn't know if we'd displayed the gifts or not.

The Border police were really pushing for some form of conviction, if we had been charged, we were looking at five years inside a German prison.

They realised that wasn't going to happen, so they started pushing for a fine for possession of banned articles. If we couldn't pay it, we would be held in custody until it was paid. But worse news for them, they got told to let us go, but not before confiscating the gifts.

Unfortunately for us because the civil police were brought in we were informed that we would need to sort our own flights home. We got shown the way out with a gentle reminder of "Don't forget you have seven days to leave the country. See you soon". To which we replied, "No you fucking won't".

We went off to find an airline desk but at half past midnight the place was deserted. Nothing open, nobody about. The police would've known this. But a shining light glowed over the Lufthansa desk, the airline we had flown in on. We headed over as the last two airport staff were putting their coats on to go home.

We explained we'd missed our connection and needed to rebook. The chap took our tickets and after pressing a few buttons his printer kicked in and two fresh boarding passes came out. Then to our surprise he said that because we were delayed coming into the country and missed our connection, we had a free taxi coupon and hotel room for the night! Bonus! I asked if there were any pay phones to update my wife and the lovely lady on the desk allowed me to use her own mobile phone.

To us this was fantastic as the police would be thinking we would be sleeping on a bench in the airport, not in a comfy bed in a hotel room along with hot power showers and breakfast.

So, the conclusion we are a banned band. All of us being detained at some point. Will this stop us? Hell No! Will it give us fire to continue? Hell Yes!

All of us are grateful for the support, help and hospitality of comrades over this weekend both in the UK and Greece.

You Have Been Whitelaw'd! (Sort of).

*We Will Have Our Country Back!*

BRITAIN is in rapid decline. Decades of subversion by the political Left and stupidity or worse from the political centre, the liberals and conservative Right has totally undermined the spirit and structure of what was once Great Britain. Successive governments have duped the British people into accepting the constant influx of foreigners, immigrants, economic migrants, asylum-seekers foreign investors, foreign companies, foreign banks, foreign customs, foreign cultures, foreign religions, foreign attitudes. Successive governments have embroiled Britain in un-winnable overseas conflicts, wars which do not offer Britain security but leave the UK vulnerable.

Large scale non-white immigration coupled with years of almost state-sponsored multi-culturalism, rampant materialism, and mind-numbing popular entertainment has undermined traditional British values and turned the ordinary British worker into a soulless consumer, addicted to fast food and the slop poured out by decadent, multi-national media, hooked into international brand-named industries. The time has come to call a halt to the betrayal and corruption of the British people by these so-called democratic forces.

The time has come to force radical changes with radical ideas of British National Socialism.
